#### 7. Standing Hip Exercise

Hold on to back of chair.  
- lift leg up in front  
- take leg out to side  
- take leg out straight out behind you

1 x10 each  
Twice per day

We also recommend that you do some strengthening of your upper body as you will have to use it quite a bit, especially in the early stages of your recovery.

**7. Bicep curls**

Holding a small weight bend your elbow up and allow to slowly drop back down.

2 x10  
Twice per day

**8. Wall push up**

With your feet a small distance away from the wall, place your hands against the wall and perform a gentle controlled push up on the wall.

2 x10  
Twice per day

**9. Chair Push Ups**

Using both hands on the arm rests of a seat, or on a flat seat, push your bottom up off the chair then lower back down.

2 x10  
Twice per day

If you have not done regular exercise recently it is advised that you start with 1 set of 10 of each exercise and build up towards 2 sets of 10.

You can also do these exercises and more at **Hawthorn Physiotherapy Clinic**.

Our Pre-habilitation Program is a great way to prepare yourself for surgery and it can all be claimed on your private health insurance extras. Call us on 9819 2827 to start your **PREHABILITATION TODAY!**
